

# CD200A

## COMBUSTIBLE GAS LEAK DETECTOR

Small, handy and easy-to-use gas leak detector for flammable gases. The 45 cm long and flexible gooseneck with illuminated sensor tip is ideal for finding leaks even in hard-to-reach places.

### FEATURES

- Adjustable tick rate for fast leak detection
- Visual and audible alarm
- Precision Sensor
- Earphones
- Illuminated sensor tip for easy leak detection
- Fast response time (< 2 seconds for 40% LEL)
- Reliable and sophisticated technology
- Low weight
- Hard Carry Case

### SPECIFICATIONS

<b>Gases</b>	Acetone, alcohol, ammonia, butane, gasoline, natural gas, industrial Solvents, methane, propane, hydrogen sulfide, thinners and many combustible gases more. <i>Please contact us for other gases.</i>
<b>Power Supply</b>	4 AA batteries
<b>Operating Time</b>	approx. 12 hours
<b>Sensor</b>	Semiconductor
<b>Warm-Up Time</b>	approx. 1 minute
<b>Sensitivity</b>	< 50 ppm methane
<b>Response Time</b>	< 2 seconds to 40% LEL
<b>Recovery Time</b>	< 4 seconds of 40% LEL
<b>Alarm Indicators</b>	LEDs, Tickrate
<b>Dimensions in mm</b>	220 x 80 x 58 mm
<b>Flexible Probe</b>	450 mm
<b>Operating Conditions</b>	0 – 50°C / 10 – 90 % rh, non-condensing
